Abtrit Ciry, Lin., Oct. 22. Levy
Puinter and the Bond brothers agreed to
meet at Reulah thurch yesterday, in the
fourth ward of this, Tangipahoa Parish,
to settle some differences. There was a
conference in progress at the church and
when the parties met they immediately
began a list fight. William M. Ray, an
onlooker, stepped a and hit Painter on
the head with a pine knot, fracturing his
skull, but Tainter, though fatally
wounded, drew his
levolver, and shot
Ray in the back and shoulder. Ray then
fired at Painter, shooting him in the
abdomen and the month, killing him
in-lantly. Warrer Richs tried the role

Attempt to Blow Up a Shanty in

A Man Arrested and Held Without Bail.

New York, Oct. 22. An attempt was made last night to blow up a shirity about a mile from New Rophelle. Had it succeeded, it is probable that nearly 100 Italian laborers would have peck littled to property in the neighborhood. Ever since work was begun on the new sewer near Glen Island, there has been trouble among the laborers, owing to the true prejudice between the Irish and the Italians. About three weeks ago there was a fight between them, and it has been renewed frequently since. Putrick Riley, one of the Irishman, aware that he would get reverge on the Italians for some wrong they did him. The Italians lived in the shanty which was provided by the contractor for them. On Saturday, Riley got the key to the tool box and after all the other workmen had gone home, went to the box and took from it nine dynamite cartridges, and other things to his home and atout 90 o'clock last night carried them to the shanty. He put the eartridges and other harts of the shanty, unfadened the wires and ran them along the ground for about 100 yards to where he had the shanty. He tricked the wires to it, the other end having already beet attached to the eartridges.

Uprising Among the People Considered Certain.

NLW YORK, Ct. '21. A Guatemala special says It is known that the opponents of President Barrios have distributed over five hundred rifles in the rural districts within a fortnight. The concentration of troops by Mexico on the frontier has proused fear among the people. It is jositively known that President Barrios is sending agents throughout the country to pucify the people who are tired of his government. If war is declared between Mexico and Gresident Barrios will be among the first to be killed.

agrices with Senator Faulkner in the latter a epimon that if the next House of bepresentatives is to be saved to the Democrats the parts in New York will have to do it. There is little thope at headquarters of obtaining enough membeta of the next House for the purpose of organization if they do not tentiol a majority of the delegation from New York. It is acknowledged also that the discord in New York is having a bad effect upon the Congressional campaign in other States. The reports received this week from Himols, Wisconsio, Michigan and Indiana and other Western States are such as to confirm the opinion

the managers have formed The Democratic Committee manager have not given out an estimate of their strength in the next House They content themselves with predicting a majority, but no due has yet been able to draw one of the managers into a discussion of details. They laugh at the claims made by the Republicans and declare that Mr. Habouck's estimates are merely a "bluff.

When Chaliman Laulkner and Stere tary Gardner, however, are engaged in a discussion not intended for publication. the exceedingly discouraging outlook be comes manifest. They are receiving the same character of reports as are going to Republican beadquarters with regard t many of the districts in the South un West, which have hitherto heen regard

ed as absolutely safe for the Demo crats. They concede that the Republicans wil elect several Congressmen south of Mason and Dixon's line. They cannot ignore the reports' they have received from the Petersburg and Norfolk Ditricts in Virginia where the local Dem

ocratic managers are predicting the defeat of their party. They also concede that the elections in the Tennessee dis triots now represented by Congressmen Enlocand Snodgrass, are very uncertain. Two years ago Mr. Euloc's major ity was only 118, and that of Mr. Snod gross, less than 1000. Some lites of the despendent condi tion of the Democrats in Olio can be gleaned from the statement of ex-Con

This queer reptile was first discovered to eivilization by the early Spanish explorers in the Gila river valloy, in what is now Arlzona. The Gila monster is of an average length of 18 inches, of which about one third is the tail. It is a sluggleb lazy autural, with a striped or spatied skin is about 3 inches thick, has four short, thick legs, and as it slowly moves in the sand it is difficult to discover whether it is crawling or walking. Its lead is thick and broad, with protubarances over its round, bulging, opaque eyes ilke the horns of the so callet California horned toad. Its teeth are set like these of an alligator, something on the plan of the screated teeth in a cross cut saw. It does not crawl in the grass like a snake, bask on rocks as a lizard does or informate in the muddy streams as does the alligator, but is always found in the lost desert sinds where the temperature is more than 100 degrees and would roast anything except a salamander or Gla monstar.

Dummy Telephones. Dummy Telephone.

There are lots of dummy triaphenes coming into use, ' said R C Owens a Kiw York electrical expert. What are they? Well in the first place they no a necessity to a busy nan win does not keep a public telephone, and in another place they present an excellent means for getting nid of bores who don't intend to be bores, who don't know that they are boresand who would resent any supposed the courtery in a protty emphatic way. Since and who would result any supposed dis-country in a pretty compliate way. Since the telephone came into general uses and pay stations were established a class has also come into being composed of people who want to use a phone perpetually and termally, but whose messages are not in portant enough to allow the expendition of a dim a line people accords with use a phone whenever they see one and as they are be confirmed. us they are becoming mere minorious ery day the dummy phage has been introduced. It looks exactly like a telephone but is made of patter from he. When a human asks to has you phane, and you have a dummy you just refer that to he and then he rings away for central until he wheres of gutting a reply Of record he thinks the instrument is out of order he may come in at some oth it mere and ask to use it again but he have comes the thinks the works at a dummy tilepione with break the biggets telephone but in existence of ever trying to use it again.—St. Louis Globe Bemeerat as they are becoming more manageners
